

Impurities Statement

Alusion® (Aluminium Oxide)

Antaria confirms that Alusion® does not contain "Total Aerobic Microbial Count (TAMC)" above 10^2 CFU/g.

Based on our knowledge of the raw materials used to produce this product, and information from suppliers, no microbial impurities above 10^2 CFU/g are expected to be present.

Based on our knowledge of the raw materials used to produce this product, and information from suppliers, lead, cadmium, mercury and arsenic are not expected to be present in concentrations greater than 10 ppm.

Geoff Adon, B. Com. CA
Managing Director
