

Heavy Metals Statement

Alusion® (Aluminium Oxide)

Antaria confirms that Alusion® does not contain heavy metals, or use in the manufacture of this product, any heavy metals (as confirmed by ICP-OES).

Based on our knowledge of the raw materials used to produce this product, and information from suppliers, any heavy metals are technically unavoidable due to the natural source of the raw material, and expected concentrations are not more than 10 ppm at present.

Geoff Acton B. Com. CA
Managing Director
