

Glyceryl Stearate

General Data

Known as: Glyceryl Monostearate

Plant Parts: Coconut Oil/ Palm Kernels

INCI: Glyceryl Stearate

Product Details

Benefits

Emulsifier

- Helps to emulsify and stabilize oil and water mixes to ensure a consistent and smooth texture (which is less greasy and sticky) and maintains the homogeneity of the product.

Thickening Agent

- Gives the sunscreen an easy-to-apply, spreadable viscosity.
- Prevents the separation of oil and water phases to maintain the homogeneity of the product.

Moisturizing

- As it is a humectant, it helps to keep skin hydrated and prevent dryness after sun exposure by drawing water to the topmost layer of the skin and binds it.
-
