Plant Parts: Petals

INCI: Calendula Officinalis Extract

## Product Details

---

### Benefits

#### *Anti-Inflammatory*

- Calendula has anti-inflammatory properties which helps to soothe irritated and sensitive skin.
- When used in sunscreen, it can help to reduce inflammation caused by UV exposure.

#### *Antioxidant*

- It contains powerful antioxidants (flavonoids and carotenoids) which aid in neutralizing free radicals made by UV radiation.
- Protects the skin from oxidative stress and premature aging.

#### *Moisturizing*

- Aims to keep the skin soft with sunscreen often containing alcohol and other drying agents.

#### *Calming*

- Provides a calming and soothing sensation which reduces discomfort - often associated with sunburns.
  - Ideal for those with sensitive skin types.
-
